

Pig money box

GETTING STARTED

- 1 Take your toilet paper roll. Cut a narrow slit in the top center of the roll where you can insert coins.
- 2 Paint the outside of the roll pink and let the paint dry completely before continuing.
- 3 Take the light pink paper and draw a circle with little legs underneath using a pencil (see example). Make sure the head is larger than the toilet paper roll (about 1 cm bigger). Then cut this out twice.
- 4 On one of the two cutouts, draw a curly tail with a black marker.
- 5 Take the dark pink paper and cut out two small triangles for the ears and a small oval for the snout.
- 6 Glue the ears and snout onto the cutout circle with legs that is still empty.
- 7 Use a black marker to draw the nostrils on the snout and a smiling mouth. And stick the wiggly eyes on the pig.
- 8 Glue the face onto the front of the toilet paper roll and the one with the tail onto the back.
- 9 Let everything dry completely.
- 10 Your piggy bank is now ready to start collecting coins!
