

**CRAFTS**

# Craft your own shrimp

## GETTING STARTED

- 1 Make sure you have a piece of square orange paper.
- 2 Fold the paper into a triangle.
- 3 Open the paper and fold both corners toward the center line.
- 4 Cut a gentle wave at the end so you can glue it together later.
- 5 Cut the scales along the fold line.
- 6 Glue the short sides together to form the body.
- 7 Cut the legs from another piece of orange paper and glue them to the bottom of the body.
- 8 Cut two round eyes from white paper and two smaller circles from black paper.
- 9 Cut two long antennae from black paper.
- 10 Glue the eyes and antennae onto the face.

Show Anna and Dean how your shrimp turned out! Send your photo to: [Anna-en-Daan@deheus.com](mailto:Anna-en-Daan@deheus.com)

## What do you need?

- Paper  
(orange, white, and black)
- Scissors
- Glue
